

Werkgroep URI-strategie

Hans Overbeek

`http://{domain}/{type}/{concept}/{reference}`

URI-strategy insights

- No register, no identifier
- {domain} \Leftrightarrow register
- for:
 - ontology terms {def}
 - reference objects
 - concepts (skos)

URI-strategy

a strategy...

... not a standard

for register keepers...

... as opposed to register users

Example URI-strategies

- Basisregistraties
(Base registries)
- Rijksdienst voor Cultureel Erfgoed
(Cultural Heritage Agency)
- EDU standaard
(EDU standard)
